

INVESTOR INVITATION

AUXESIS PHARMA HOLDING AB (publ), (here the company), with organization number 559195-6486 invites you to an investor forum at Karolinska Institutet on:

Monday 30th of January 2023, at 15:00 (3pm)

Karolinska Institutet Huddinge, Hälsovägen 7, 141 57 Huddinge

We have banners outside and staff showing the way into the premises.

On site you will have the opportunity to meet the founder and CEO Roar Adelsten, the research supervisor Professor Moustapha Hassan and key people in the company's management team.

The company conducts research on medical preparations to remove sensation from skin irritations, such as pain. Note that the research is about very rapid elimination of pain, not just relief (Cox2 block). The effect remains until the cause of the irritation is eliminated. The research also applies to pain management in veterinary care.

The preclinical research has now reached new results in pain elimination of skin irritations and is currently focused on achieving an acceptable shelf life for the preparation. We managed to achieve the results and new discoveries, which creates a very unique product!

The company received SME status from the EMA (European Medicines Agency) in December 2021.

AUXESIS PHARMA HOLDING AB (publ) AB today has over 200 shareholders and approximately 150 convertible holders as private individuals and smaller companies. We are now unlocking the opportunity for an investor or a group of successful investors to join us on the journey!

You can read more about us, what we do and what we want to achieve in the Memorandum and at www.auxesis.se

RSVP closing Friday 27th of January at 5:00 p.m

Please send a participation request (and number of attendants) at the investor forum 01/30/2023 at Karolinska Institutet in Huddinge.

Registration request: info@auxesis.se

Welcome!

Kind Regards

Mr Roar Adelsten
VD/CEO
